

CTE Wind
33, Rue du Haut Chemin
35 780 La Richardais

To the attention to Alexander Martin – Head of engineering

Pérols, March the 20th of 2018

Object: Recommendation letter

Dear Sir,

I hereby would like to recommend the company CTE Wind, which Vestas France has always worked in a successful and highly satisfactory collaboration, both in terms of efficiency as well as professionalism.

So far our collaboration has been related to any type of wind farm project but with a deeper interest for the turn-key ones.

CTE Wind has always shown a high expertise level within the wind turbine foundation area, with real quality studies in both foundation pre-design and complete execution.

We hope this recommendation will support bringing CTE Wind new challenges.

Yours sincerely.

Philippe Thollon
Bid Manager – Vestas France
