5 REASONS WHY CTE WIND

01.
Design experts
since 2003

02.
Certified Design
Method by DNV

03.
Trusted relationship
with OEMs

04.
No failures and
100% customer
satisfaction

05.
Worldwide
insurance liability

REPOWERING & LIFETIME EXTENSION

For all WTG-foundation types:

- Fatigue verification
- Lifetime extension
- Repowering

GEOTECHNICAL CONSULTANCY SERVICES

- Design of geotechnical campaigns
- Drafting of geotechnical studies
- Subcontractor management
- Geotechnical report execution
- Synthesis of soil values to choose the best foundation
- Verification of third party reports

FORENSIC ENGINEERING

- Fact finding on site
- Root cause analysis assessments
- Establishing repair concept
- Site inspections to verify satisfactory repair

OUTSTANDING SKILLS

- Independent design verification / Category III check
- Reinforcement verification and on-site construction QA / QC
- R&D Engineering / Design solutions for prototypes
- FEM-Analysis for new design and trouble shooting

FOUNDATION DESIGN SERVICES

- Preliminary and detailed designs following international standards
- Bill of quantities for tender phases
- Respecting specific wind guidelines and local country regulations
- Resource-saving foundation design
- Time and cost reductions thanks to inventive design solutions
- Participation on standardization committees

INVENTIVE DESIGN SOLUTIONS

Optimized Gravity Foundation

SOFT-SPOT® Solution

Near-Shore Foundation

Rock Anchor Foundation

Ribbed Foundation

Anchor Cage Design

Piles Design

Concrete Tower Foundation

High Pedestal / Plinth
